

Tokio Marine Asset Management International Pte. Ltd.

Winner in the Asia ex-Japan equity category

AsianInvestor Investment Performance Awards 2010

The award exemplifies the quality of the firm's research, its ability to produce superior alpha-focused returns consistently in dynamic Asia

20 April 2010, Tokio Marine Asset Management International Pte. Ltd. ("TMAI") is pleased to announce that they have been awarded the winner of the 2010 Investment Performance Awards by AsianInvestor for the Asia ex-Japan equity category. This is the second consecutive year that TMAI has won the Award.

TMAI is the leading Asian equity specialist in both the traditional asset classes and hedge funds. The investment team at TMAI is led by Mr. Hiroshi Yoh, Managing Director and Chief Investment Officer, a veteran who has been with the Tokio Marine Asset Management group since 1998 and has more than 20 years of investment experience.

Commenting on the award by AsianInvestor, Mr. Hiroshi Yoh said, "This is a great honour for TMAI as a young company to win this award for two consecutive years against strong competition from all the big houses. We are very honoured to be recognised again for our consistent and sustained performance over various periods, especially through the depressed markets of 2008 and their remarkable subsequent recoveries in 2009. This is attributed to our proven and disciplined investment process and the investment team who is always focusing on both seeking the best return and cultivating strong risk awareness."

TMAI Asian equity products are gaining increasing attention in Europe and Asia, especially among institutional investors and asset/investment consultants, due to both the prospects of the Asian markets and TMAI's strong track record. With this award,

TMAI hopes to make further inroads into the Asian, European and the Japanese markets by offering their services to these prudent long term investors.

About Tokio Marine Asset Management International Pte. Ltd.

TMAI is the Asian subsidiary of Tokio Marine Asset Management Co., Ltd. TMAI is an Asian equity specialist with product capability in the main geographical categories of Asian equities and in both the long only and long/short strategies. With an average investment experience of more than 15 years, TMAI's senior investment managers possess consolidated knowledge of investments and equity markets in Asia. One of TMAI's edges lies in their in-depth understanding across countries, industries and corporations, including small-and-medium capitalised companies. The investment research capabilities are founded on a specialisation by country approach. Each team member has their country of specialisation, thus developing a deep understanding of both the macro and microeconomic aspects under their coverage.
