

## **Tokio Marine Asset Management becomes signatory to UNPRI**

**April 1, 2011** Tokio Marine Asset Management Co., Ltd announced today that it has become a signatory to the United Nations-backed Principles for Responsible Investment Initiative (UNPRI).

Tokio Marine Asset Management has established policies, processes, and infrastructure related to responsible investment, including a Responsible Investment Committee, and also manages related strategies. We believe that by becoming a signatory to UNPRI we are reaffirming our already-strong commitment to responsible investment, as well as working to fulfill our social responsibilities as an institutional investor.

The United Nations Principles for Responsible Investment were launched in 2006 by then-United Nations Secretary General Kofi Annan. The six Principles, listed below, form a framework to integrate environmental, social, and corporate governance (ESG) issues into investment decisions:

1. We will incorporate ESG issues into investment analysis and decision-making processes.
2. We will be active owners and incorporate ESG issues into our ownership policies and practices.
3. We will seek appropriate disclosure on ESG issues by the entities in which we invest.
4. We will promote acceptance and implementation of the Principles within the investment industry.
5. We will work together to enhance our effectiveness in implementing the Principles.
6. We will each report on our activities and progress towards implementing the Principles.
